crossing Jugo-Slavia frontiers. Premier Orlando spent an hour with Council House discussing the question of the Adriatic, which, with reparations, and the Rhine frontier are three vital issues obstructing progress. It developed that the view of British and French financial experts agreed in the main with American views regarding Germany's resources and ability to pay, but it remains for the premier to decide finally on total indemnities. TAFT AMENDMENT
TO LEAGUE DRAFT

WASHINGTON, March 27.—The text of the amendment to the league of nations covenant, proposed by William H. Taft, considered by President Wilson and the premier yesterday, it became known today, was sent from the White House within a week after Mr. Taft was assured by Secretary Tumulty that the president would welcome any suggestion. Several days ago a message from the president thanking Mr. Taft was received.

While the general market was a little off prices held remarkably well, considering the startling appreciation of the last few days. One of the surprises was the way some of the junior stocks acted by jumping 100 per cent in value with few offerings. This was especially observed in North Divide which has sold as low as five cents and which was in active request on the coast at 17 cents. Sutherland was another good actor.

In contrast to the stillness of the market was the feverish activity on the material side of the Divide arising from a persistent inquiry for good inside locations where the prospect of developing would justify the investment of big money. Preferential positions could command their own price and the call for such locations brought about an acute competition that resulted in a sharp advance in prices previously quoted. Locators who had been offered \$15,000 to \$17,500 for groups found eager bidders on their trail with offers 25 per cent and 40 per cent better than the first figures.

The fact that Clyde Heller for self and associates had subscribed for 300,000 shares of Belcher on the recommendation of George H. During the evening the story leaked out that Mr. Heller for the
